ABOUT ME

Full Stack Developer with **5+ years of experience** building robust web and mobile applications. Specialized in **React, Flutter, React Native, and Node.js** ecosystems with additional experience in Native Android and iOS development. Proven track record at companies like **NthLogics** and **TectSoft**, delivering high-quality solutions ranging from play-to-earn gaming platforms to professional networking apps. Passionate about creating seamless user experiences and writing clean, maintainable code that scales.
